

# Biopep

Biopep is a premix of 0.1% Biotin on a cereal flour carrier essential for the normal growth of hooves in horses.

- Many cases of weak misshapen, cracked and crumbly hooves have responded to feed supplementation with Biotin.
- Hoof Wall Disease is very common in horses. Feeding Biopep can result in much healthier hooves. Because the hoof walls grow slowly, supplementation may be necessary for some months.

## 4kg, 10kg, 20kg

### Suitable for:

- Pigs, horses and poultry

### Directions for use:

- Horses
