

Poly Feeders

Poly feeders are a great way of providing a simple feed trough that will reduce the wastage of your supplement from weather damage.

- Manufactured from polyethylene which is UV stabilised and durable (won't corrode) while still being lightweight
- The top can be removed which then allows them to be stacked for storage or transport
- Better suited to large mobs of livestock
- Could also be used as a molasses trough
- Centre divider supports rubber lid

120L and 380L

Why use poly feeders?

- Weather proof - Less spoilage of supplements
- Durable - Won't rust
- Light - Yet strong
- Economical - Low capital outlay
- Versatile - Can be used for mineral or protein based feeds
- Simple Construction - Easy to assemble
- Stackable - Easy to transport out a minimum of 2 weeks supply of blocks with no more than 10 head per block.
