

# Fortamin

Fortamin is a palatable molasses, calcium and phosphorus block fortified with copper, zinc and selenium for breeding and growing stock grazing in areas where mineral deficiencies may occur.

- Good level of phosphorus
- Molasses and protein meal added to ensure acceptance by all stock
- Improved growth rates in young stock
- Increased wool growth with better tensile strength
- Better fertility in breeding stock
- High vitamin A level for better fertility in rams

## 20kg, 40kg and 100kg

### Recommended Intake: (per head/per day)

- Cattle 100-200g
- Sheep & Goats 20-40g
- Horses 150-300g

### Directions for use:

- Place out sufficient blocks so stock have ready access
- Place blocks near watering points
