

Biopep

Biopep is a premix of 0.1% Biotin on a cereal flour carrier essential for the normal growth of hooves in horses.

- Many cases of weak misshapen, cracked and crumbly hooves have responded to feed supplementation with Biotin.
- Hoof Wall Disease is very common in horses. Feeding Biopep can result in much healthier hooves. Because the hoof walls grow slowly, supplementation may be necessary for some months.

4kg, 10kg, 20kgt

Suitable for:

- Pigs, horses and poultry

Directions for use:

- Horses
For correction 20g/horse/day for 150 days
