

# Magsup

Magsup has been formulated as a high magnesium, mineral supplement to help all sheep & cattle grazing on cereal crops or magnesium deficient pastures.

- High levels of magnesium, calcium and sodium, which are important to supplement particularly when grazing cereal crops
- Increased weight gains on green pastures
- Standard inclusion of both chelated zinc and biotin to improve hoof growth and hardness
- Trace elements for immune function and health
- Can assist in the prevention of grass tetany in livestock when dietary magnesium levels are low, or potassium levels are high, as in winter and spring green feed
- Contains SarStart, a natural ionophore to improve feed efficiency and energy availability

## 25kg

### Recommended Intake: (per head/per day)

- Sheep & Goats 15-30g
- Cattle 40-100g

### Directions for use:

- May be feed free choice, preferably in a covered trough

ANALYSIS per Kg
