

# Phosmix

Phosmix is a palatable phosphorus, calcium, Vitamin A and trace mineral supplement for horses, cattle, sheep and goats

- Prevents calcium deficiency in horses, aiding in the prevention of Bighead, so is useful in paddocks with a high content of exotic grasses
- Feeding Phosmix is useful in artificial insemination programs for breeders as it helps them to cycle
- Increases feed intake in ruminants
- Prevents botulism in cattle

## 25kg

### Recommended Intake: (per head/per day)

- Cattle 60-100g
- Lactating cows 150-200g
